React + Django Developer

React + Laravel Developer

Next.js + Firebase Developer

Flutter + Firebase Developer

Database Administration

Operating Systems

SKILLS

PROGRAMMING

Over 5000 lines:

React.js • Next.js • Node.js • Laravel

JavaScript • PHP

Over 1000 lines:

Django • Python • Flutter • Dart

Familiar:

Java • iOS • Android • Kotlin

EXPERIENCE

CODEALPHA | MOBILE APP DEVELOPER INTERN

Oct 2024 - Present | India | Remote

- I developed cross-platform apps focused on performance and user experience. I used Firebase for real-time database management, integrated RESTful APIs, and contributed to UI design. I collaborated with teams and conducted testing to ensure app stability and reliability.

UPWORK | FULL-STACK DEVELOPER

May 2023 - Present | Kabul, Afghanistan | Remote

- I build comprehensive web applications, handling both frontend and backend with React, Django, Laravel, and Next.js with Firebase. I develop scalable mobile projects using Flutter and Firebase and integrate AI/ML solutions with Python. I collaborate closely with clients to deliver high-quality, responsive applications tailored to their needs.

KHYBER WELFARE SOCIETY | SENIOR WEB DEVELOPER

Dec 2022 - Present | Pakistan, Peshawar | Remote

- I lead full-stack web development using React, Laravel, the MERN stack, and WordPress. I oversee project architecture, mentor teams, and ensure seamless deployment with Hostinger. I integrate APIs, optimize performance, and apply best practices for user experience and security.

MINISTRY OF JUSTICE | DATABASE ADMINISTRATOR INTERN

Oct 2022 - Nov 2022 | Kabul, Afghanistan | On-Site

- I optimized database performance, developed structures, and implemented security protocols. I also monitored system performance, troubleshooted issues, and assisted with backup and recovery processes to ensure data reliability.

MOORE AFGHANISTAN /IAP | DATA ENTRY SPECIALIST

Apr 2019 - Aug 2021 | Kabul, Afghanistan | On-Site

- I manage and update large volumes of data, ensuring accuracy and consistency. I collaborate with teams to streamline data processes, maintain organized records, and meet deadlines to support efficient operations.

PROJECT

INTELLCART AI AND ML POWERED | E-COMMERCE SYSTEM

Aug 2024 - Present | Self-Employed

IntelliCart is a next-gen e-commerce platform that combines AI and Machine Learning to enhance the online shopping experience. This multi-vendor platform features automatic content writing for product descriptions, generating SEO-friendly, engaging content with no manual effort.
